

TRIMANJEEV SAWHNEY

Toronto, ON | 437-776-4425 | trimanjeev42@gmail.com | LinkedIn | Portfolio: trimanjeevs.github.io

PROFESSIONAL SUMMARY

Business Economics graduate with experience supporting investment research, financial statement analysis, and commodity-market analysis. Combines metals and energy research with independent valuation work and Economics Club portfolio simulations to assess financial performance, market drivers, and investment risks.

FINANCIAL & TECHNICAL SKILLS

Analysis: Financial statement review (profitability, leverage, cash flow); DCF modelling and sensitivity analysis; portfolio returns and benchmark comparisons; commodity and macroeconomic research

Tools: Excel (PivotTables, Power Query, XLOOKUP, SUMIFS), R, SQL, Power BI, Python (Foundational)

PROFESSIONAL EXPERIENCE

Primo Impex Pvt Ltd | Commercial and Business Operations

Jan 2025 - Sep 2025

- Analyzed revenue, supplier costs, margins, cash flow, and account performance across 20+ customer and wholesale accounts, reconciling records and investigating financial discrepancies.
- Evaluated product economics, supplier terms, customer demand, and channel pricing to assess expected margins and support purchasing and account decisions.
- Redesigned online sales workflows across Amazon, the company website, and wholesale platforms, contributing to **130% growth in online sales over four months**.

Algoquant Fintech | Junior Analyst Intern, Commodity Markets

Jul 2024 - Dec 2024

- Supported commodity-market research covering gold, silver, copper, and crude oil, analyzing price movements, supply-demand conditions, macroeconomic indicators, and sector developments.
- Reviewed financial statements and operating drivers, including profitability, leverage, cash-flow trends, and earnings developments, to support company and sector research.
- Cleaned, validated, and reconciled market, pricing, financial, and macroeconomic data from multiple sources, investigating discrepancies before analysis and reporting.
- Prepared charts and concise summaries of market developments and research findings for the supervising analyst.

EDUCATION & PROFESSIONAL DEVELOPMENT

York University, Toronto, ON | Bachelor of Arts, Business Economics | 2021-2026

AI Prompting and Optimization | Coursera

Structured prompting for research and analytical workflow optimization, including validation of AI-assisted outputs.

SELECTED PROJECTS

Independent Projects | 2026

Equity Research & DCF Valuation | Excel

- Built a five-year DCF model linking operating forecasts, free cash flow, weighted average cost of capital, and terminal growth to implied equity value.
- Analyzed valuation sensitivity to revenue growth, operating margins, discount rates, and terminal assumptions under base, upside, and downside scenarios.
- Prepared an equity research summary connecting business performance, valuation assumptions, potential catalysts, and downside risks to an investment thesis.

Portfolio Performance & Risk Analysis | Excel, R

- Built a historical portfolio analysis workbook comparing portfolio and benchmark returns, asset allocation, concentration, and diversification.
- Calculated portfolio volatility, maximum drawdown, and asset correlations to assess diversification and downside risk.
- Prepared a performance review linking holdings and market developments to returns, with rebalancing considerations based on portfolio concentration and risk.

ADDITIONAL ACTIVITIES

York University Economics Club: Contributed investment research, portfolio analysis, and team presentations to club competitions and simulations, including a virtual portfolio that returned **23% over three months**.
